

Dear Mr. / Mrs. Shopee

I am Mochamad Faizin Ahsan, a 7th-semester student from Padjadjaran University majoring in Informatics Engineering. In this 7th-semester, I was required to do an internship in a technology company and when I discovered the internship vacancy from Shopee in Indeed.com, I was drawn to the opportunity to join an innovative organization with the position of Software Developer Internship. I am excited to gain experience by working in this company and as a 7th-semester student, I am passionate about programming.

As proof that I am passionate about programming, I have taken a course to become an Android expert from Dicoding Academy and have the certification from it, and I have also done various projects related to developing android application.

I have also done various projects related to backend programming using Django Python for my college work and Laravel for my internship project back at my previous company. All of my projects can be seen in my portfolio.

I am excited by the chance to contribute to your organization and am prepared to engage in continuous learning and eager to gain a more detailed understanding of the field by collaborating with an experienced team. I hope that this internship application can be considered and accepted by your company. If you want to know more about me, I am very willing to take the time to be interviewed. Thus I submit this letter to your attention, I thank you.

Best regards,

Mochamad Faizin Ahsan
